Gurdaspur, Punjab, India

CAREER OBJECTIVE

Motivated Computer Science and Engineering student with a strong interest in artificial intelligence, machine learning, and emerging technologies. Eager to apply my technical expertise, analytical mindset, and problem-solving skills to build innovative solutions, contribute to impactful projects, and grow within a dynamic and forward-thinking organization.

EDUCATION

Chandigarh University	2023 – 2027
B.E. in Computer Science and Engineering	CGPA: 8.68
Shanti Devi Senior Secondary School, Dinanagar	2021 – 2023
Senior Secondary (Class XII)	93.8%
Little Flower Convent School, Dinanagar	2019 – 2021
Secondary (Class X)	91.7%

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C++, JavaScript, SQL
- **Machine Learning & Data:** TensorFlow, Scikit-learn, NLTK, Data Analysis
- **Web Development:** React, JSP, Hibernate, REST APIs
- **Databases:** MySQL
- **Tools & Platforms:** GitHub, Postman, Canva, GitHub Copilot
- **Professional Strengths:** Team Leading, Problem Solving, Multi-Tasking, Versatile, Critical Thinking, Logic Building, Team Management

PROJECTS

- **EducoLink – “Where Intelligence Meets Study” (React, Web Technologies, APIs):** Created an educational platform that connects students with learning resources, enabling collaborative learning and easy access to study materials through an intuitive web interface. *(April 2026)*
- **Mind Healix – “Every Mind Deserves to be Heard” (Machine Learning, Python, Data Analysis):** Developed a mental health and stress detection system that analyzes user responses and behavioral indicators to identify stress levels and provide insights for early awareness and well-being monitoring. *(March 2026)*
- **Real-Time Analytics Dashboard (React, WebSockets, REST APIs):** Designed and developed an interactive dashboard to visualize real-time data streams, enabling dynamic updates and data-driven insights through API integration and WebSocket communication. *(December 2025)*
- **Spam Detection System (Machine Learning, NLTK, Scikit-learn):** Built a text classification pipeline using Natural Language Processing techniques to detect and filter spam messages, improving message classification accuracy and efficiency. *(August 2024)*
- **Handwritten Digit Recognition Model (Python, TensorFlow):** Developed a neural-network-based model to classify handwritten digits with high accuracy using benchmark datasets such as MNIST, demonstrating practical implementation of deep learning concepts. *(December 2023)*

CERTIFICATIONS & ACTIVITIES

- Winner – Samsung Innovation Campus Hackathon *(2026)*
- Winner – Bharat Tech Experience (National Level – Innovation Category) *(2026)*
- First Runner-Up – Build for Bharat Hackathon *(2026)*
- Joint Secretary – IEI Students Chapter, Chandigarh University *(2026)*
- Campus Ambassador- OSEN*(2026)*
- Participant – Zinnovatio 3.0 (36-Hour Gen-Z Hackathon), Chandigarh University *(2025)*
- Participant – HackFest’25 (National Level Innovation Sprint) *(2025)*
- Postman API Student Expert Certification *(2025)*
- Machine Learning Workshop (10 Hours) *(2024)*
- Advanced Credit Program – Programming in Python, Artificial Intelligence, Coding & Blockchain *(2023)*
