Bipasha Rehan

has successfully completed the online Specialization

The Complete Ethical Hacking Course

Congratulations on successfully completing "The Complete Ethical Hacking Course"! You have acquired the skills necessary to perform real-world ethical hacking techniques and penetration testing. Throughout the course, you've gained hands-on experience securing networks, systems, and applications. You've explored essential hacking tools such as Kali Linux, nMap, Wireshark, and Metasploit, learning to use them effectively in penetration testing scenarios. The course has also prepared you for recognized ethical hacking certifications, equipping you to tackle modern security challenges. With your newfound expertise, you are now a proficient cybersecurity professional, ready to address complex security issues in any environment.
